

Please leave your comments if there is anything you would like the Technical Committee to look at.

1. French terms starting with an accent on the first letter

It seems that when there is an accent on the first letter, terms are not visible in the list of terms in French. Terms can be found by going to English first.

[list of French terms with an accent on the first letter](#)

2. Term in French only

The term [coût de fonctionnement](#) does not have any equivalent in the other languages and does not have any definition in French

3. Terms with a special character

Terms with a / can not be viewed (error 404)
